

Georgia's PEACH Education Tax Credit and Support for Literacy

— GEORGIA —
COUNCIL ON LITERACY

Your contribution to PEACH can make an immense difference in the lives of Georgia's students, and it can also provide a dollar-for-dollar tax credit.

The tax credit is capped at \$15 million and is approved on a first-come, first-served basis. So, don't wait! Submit your PEACH application today!

Your Donation Will Support Improvements in Literacy

Private dollars raised will match public funding provided by the Georgia General Assembly to support the Georgia Reads Community Award program. Private funding will also extend public support for educator professional development in the science of reading.

We all have a role in literacy improvements. Engage your community organizations and leaders in literacy collaboratives that work toward meeting reading goals. Together, we can turn the page to a brighter future!

Student Literacy 2024 Milestones

Since the pandemic (2020), the percentage of third graders reading proficiently has increased by just two percent.

Only 38 percent of Georgia's third graders can read proficiently. Over half of Georgia's eighth graders are not reading proficiently.
